

Butler County Accessible Housing Program

The program will assist income-eligible homeowners and renters (with landlord participation) that have permanent physical disabilities or have a household member with permanent physical disabilities that require modifications and/or accommodations to their homes to enable independent living.

Funding may be used for a variety of modifications including: **first floor accessible bathrooms, ramps, grab bars, wider doorways, audible and visual adaptations and accessible kitchens/bathroom cabinets**. Qualified applicants may be able to receive a \$5,000 grant toward these improvements.

Funding is limited, and not all eligible applicants are guaranteed assistance.

Funding Still Available!
